

Eco Plastic Trim

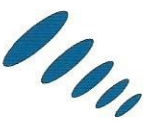

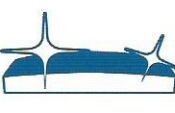

All plastic trims which have hard plastic frames.

Eco Plastic Trim is the world's first and innovative trim that has a hard plastic frame. It is eco-friendly and recyclable.

Unlike normal trims, its frame does not rust and realizes welding for endless processing etc.

Features

<p>Eco-friendly</p>  <p>This product is environmentally friendly because it has a clip and does not need solvent-type adhesives. It can be attached or removed repeatedly.</p>	<p>Light-weight</p>  <p>It is lightweight because it does not have a metal frame.</p>	<p>Antirusting</p>  <p>Its frame does not rust because it is made of resin.</p>
<p>Recyclable</p>  <p>It is recyclable because its surface material is an olefin elastomer, which is of the same type as polypropylene used for its frame.</p>	<p>Coloring</p>  <p>It can be colored because it is made of resin.</p>	<p>Excellent secondary workability</p>  <p>It realizes welding for endless processing, including the frame, because it is made of resin.</p>

Applications

Eco plastic trim is widely used in test equipment, electronic devices, appliances, construction, buildings, automobiles, disaster-related products, signs, outdoor products, sundries, etc.
